

Employment Opportunity

Woodland Development Officer

0.4 FTE (14 hours per week) up to £28,000 p.r. equivalent (DOE)

Fixed term contract until July 2023

Applecross Community Company (ACC) has an exciting opportunity for a part-time Woodland Development Officer to help develop and deliver our Torgarve Community Woodland project.

The WDO will be responsible for managing the first 12-months phase of a community project, restoring the natural and cultural heritage within a recently cleared conifer plantation. The project will enhance biodiversity, access, amenities and activities within a 14.5ha woodland site. The role will involve working in collaboration with members of our community, local volunteers and external stakeholders. It will be line managed by our Local Development Manager, with the support of the ACC volunteer Board.

We are looking for someone who is self-motivated, energetic and has enthusiasm for Applecross and community woodlands. Good communication, project and woodland management, and fundraising skills are essential for the role. Desirable skills include Gaelic language and experience of community engagement.

This post is funded by the Highland Council Coastal Communities Fund and ACC for 12-months, until July 2023. The position may continue beyond this date if future funding is secured. The successful candidate will ideally be based on the Applecross peninsula or surrounding area, however consideration will also be given to candidates who are able to travel regularly to Applecross. The salary is set at a pro rata basis of £28,000 FTE (depending on experience) and a full job description is available on our website.
